Instalment Credit for Retail Sales	22
Rainfall (Agricultural Areas)	23
Census Summary - Characteristics of the Population, 1961 and 1966	24-26
List of Publications	28

Most of the tables in this publication have been prepared entirely on a monthly basis to provide easy comparison of data. With a few exceptions, annual and quarterly figures are expressed as monthly averages and these can be converted to actual totals by multiplying by 12 and 3 respectively.

For example (from page 5):

Births in year 1967 -

Monthly average 1,699

Therefore annual total = $12 \times 1,699 = 20,388$

(Actual figure is 20,386)

Deaths in December quarter 1967 -

Monthly average 808

Therefore quarterly total = $3 \times 808 = 2,424$

(Actual figure is 2,424)

The statistics as published can be adapted to give information in a number of different forms. For instance -

- (1) Details can be obtained for calendar or financial years as required by addition of figures for the four relevant quarters.
- (2) Progress total for the year to date can be obtained by adding totals of quarters and months, e.g. if May figures are the latest published, total for the 5 months to May = $3 \times$ monthly average of March quarter + April and May.

This procedure can be used to calculate corresponding figures for the same period of the previous two years or similar information on a financial year basis.

Details of production on pages 10-13 are for selected items only. Particulars for several commodities of considerable importance in this State have been withheld because publication would reveal confidential information. Final amendments are made only to annual and not to quarterly production figures so that monthly averages for the year and the four quarters will not necessarily reconcile.

In tables where figures have been rounded, discrepancies between totals and sums of components are due to rounding.

ABBREVIATIONS USED

Throughout this bulletin the following symbols have been used -

n.a. Not collected, not available for publication, or not applicable.

- Nil (or less than 0.5).

p Preliminary figures.

r Revised since previous issue.

———— Break in continuity of series (where drawn across a column between two consecutive figures).

A blank space in a column of figures means the figure concerned is not yet available.

When the symbol "p" or "r" is placed in the column headed "Period" (as for example on page 15) it refers to all figures on that particular line.

POPULATION

Period	Total State (a)			Metropolitan Area (a)(b)
	Males	Females	Persons	Persons

MEAN POPULATION DURING THE PERIOD				
Year ended June 1965	529,294	522,804	1,052,098	n.a.
Year ended December 1965	536,539	530,345	1,066,884	
Year ended June 1966	543,883	537,981	1,081,864	
Year ended December 1966	550,058	544,509	1,094,567	
Year ended June 1967	554,691	549,282	1,103,973	
Year ended December 1967	558,557	553,118	1,111,675	

- (a) Post censal estimates of the population are revised after publication of the next census results. Estimates from December 1961 to March 1966 have been revised in accordance with final results of the Census 30 June 1966. Particulars of full-blood Aborigines are included in Total State but are excluded from Metropolitan Area figures.
- (b) Prior to June 1966 the metropolitan area comprised 21 municipalities. From June 1966 new criteria based mainly on population density have been adopted and Elizabeth, Salisbury and Tea Tree Gully have been included.

For meaning of symbols n.a., _____, see page 3.
